

---

**Did you know? From now on...**

**Original KOSTYRKA® Clamping Discs  
have an improved design!**

The well-established design of our KOSTYRKA® Clamping Discs has been developed.

Therefore you get the Clamping Discs from now on in an advanced design:

- considerably **increased working pressure** - now up to 450 bar, for a short time up to 600 bar
- a **nearly doubled clamping force**
- substantially **increased lifetime** due to an improved sealing concept
- considerably simplified installation due to the **cancellation of the installation tool**

**A further advantage for you:**

The new manufacturing method involves a cost saving which we pass on to you.

From now on you get the Original KOSTYRKA® Clamping Discs with a **reduction of 5% on our current list price.**
